To whom it may concern

T-Mobile is proposing to install a four (4) sector antenna array atop of the bell tower located at 2320 Mayfield Ave., Baltimore, MD 21213. The initial install will include eight (8) antennas, one (1) microwave dish and auxiliary equipment and cabling.

The installation will be placed within a stealth enclosure that will be designed to match the material of the bell tower. The top of the enclosure will extend approximately 14' above the existing parapet wall of the tower.
